## **Re: Halting Deportation Flights to Haiti**

Dear President Biden, Secretary Mayorkas, Ambassador Rice, Advisor Sullivan, and Secretary Blinken:

Today, as Haitians struggle to cope with the deaths and consequences from the <u>7.2 earthquake</u> on August 14, 2021, which caused <u>large-scale damage</u> across the country's southern peninsula, the undersigned organizations ask your Administration to immediately halt all deportation and expulsion flights to Haiti; promptly return to the United States any Haitians who were eligible for Temporary Protected Status ("TPS") and wrongly deported since May 21, 2021; explore other avenues of protection for Haitian immigrants including Deferred Enforced Departure ("DED"); expedite the release of Haitians detained in immigration facilities in the United States, Puerto Rico and other territories; and grant humanitarian parole to Haitians at the U.S.-Mexico border.

Your May 22 announcement redesignating Haiti for TPS was warranted by extraordinary conditions of insecurity, political upheaval and dysfunction, and violence, which made it impossible to return its nationals to safe conditions. The July 7 assassination of President Jovenel Moïse and now the massive earthquake are additional hammer blows.

August 14's earthquake damaged or destroyed more than <u>120,000 homes</u>, took over <u>2,200</u> <u>lives</u>, and injured more than <u>12,000 people</u>. Hospitals are overwhelmed, buildings flattened, and bodies trapped under rubble. As the <u>head of the Episcopal Church</u> in Les Cayes, one of the main towns affected, said, "The streets are filled with screaming." As we know from the 2010 earthquake that took approximately 200,000 lives, destroyed much of Port-au-Prince, and from which Haiti has still not fully recovered, <u>it will take years</u> for Haitians to recover from the earthquake.

Starting on <u>January 13, 2010</u>, the day after the earthquake, the U.S. government halted all deportations to Haiti for about a year or longer. Removals were temporarily halted again in October 2016 after <u>Hurricane Matthew</u>'s devastation. The Biden Administration should now follow suit, prioritize humanitarian relief over enforcement, and instruct ICE to immediately suspend deportations and expulsions indefinitely.

Even before last week's earthquake, according to <u>Human Rights Watch's 2021 World Report</u>, Haiti has been experiencing one of the worst outbreaks of violence in decades, where "some 4.1 million Haitians—more than a third—live with food insecurity, and 2.1 percent of children suffer severe malnutrition." Given these facts, the Administration rightfully <u>redesignated Haiti for</u> <u>TPS</u> on May 22, 2021. Following the assassination of President Moïse, <u>activists wrote to extend</u> <u>further protection</u> as experts warned that the political vacuum left by the President could exacerbate the current cycle of violence in Haiti.

We welcomed the Administration's extension of the eligibility date from May 21, 2021 to July 29, 2021, but are alarmed that flights returning them have proceeded. Earlier this month, two deportation flights left Texas for Haiti, returning approximately 130 individuals, including several children under the age of two-years old, just weeks after President Moïse's assassination. Since February 1, 2021, the Administration sent at least 37 deportation flights to Haiti, even as your officials acknowledged internally that those being deported "may face harm" on return and the COVID-19 pandemic raged. By March, the Biden-Harris Administration had removed more Haitians since taking office than during all of <u>fiscal year 2020</u>. Many of the deportees must return to neighborhoods <u>controlled by gangs</u> with ongoing kidnappings, in an already unstable environment now further overwhelmed by Saturday's calamity.

As stated by Secretary Mayorkas in his TPS announcement for Haiti.

Haiti is currently experiencing serious security concerns, social unrest, an increase in human rights abuses, crippling poverty, and lack of basic resources, which are exacerbated by the COVID-19 pandemic. . . . After careful consideration, we determined that we must do what we can to support Haitian nationals in the United States until conditions in Haiti improve so they may safely return home.

Unfortunately, those conditions have worsened <u>as civil unrest</u> has continued, adding to the July 7 assassination, COVID, and now August 14's devastating earthquake and storm Grace. The judge tasked with overseeing the investigation of the President's assassination recently <u>resigned</u>, underscoring the threat to judicial independence and the heightened level of fear amongst both ranking members of the Haitian government and civilians alike.

Given these current extraordinary and temporary conditions in Haiti, we urge your Administration to halt all ICE removal and expulsion flights to Haiti immediately; return to the United States any Haitians who were eligible for TPS but were wrongly deported since May 22, 2021 (including on ICE's July 6, August 10 and August 12 flights); extend the eligibility date for TPS explore other avenues of protection for Haitian immigrants including Deferred Enforced Departure ("DED"); expedite the release of Haitians detained in immigration facilities in the United States, Puerto Rico and other territories; and grant humanitarian parole to Haitians at the U.S.-Mexico border.

While Haiti's redesignation for TPS will help promote the nation's recovery and stability by preserving and increasing the flow of remittances to Haiti, deporting families to Haiti will only

impede recovery. It will also severely undermine the Administration's promise to build a fairer and more inclusive immigration and asylum system for all.

In the <u>statement</u> issued after the August 14th earthquake, President Biden stated, "The United States remains a close and enduring friend to the people of Haiti, and we will be there in the aftermath of this tragedy." Being "there in the aftermath of this tragedy" cannot include the U.S. government causing additional harm to and pressure on an already-overburdened country and people by continuing deportations.

As the Haitian community and the world watches and waits for the Administration's next move, we urge them to act with compassion and prioritize human lives over arbitrary enforcement.
